I. Introduction

On March 26, 2021, the Postal Service filed a notice with the Commission pursuant to 39 U.S.C. 3642 and 39 CFR 3040.130 *et seq.*, requesting that Bound Printed Matter Parcels be transferred from the Market Dominant product list to

the Competitive product list as Parcel Select Bound Printed Matter.¹ In support of its Request, the Postal Service filed the following documents:

- Attachment A— Resolution of the Governors of the United States Postal Service, August 8, 2019 (Resolution No. 19-8);
- Attachment B— Certification; and
- Attachment C— Draft Mail Classification Schedule (MCS) Language.

The Postal Service asserts that the new Parcel Select Bound Printed Matter product fulfills all of the criteria for competitive products under section 3642. See Request at 2-14. Specifically, the Postal Service states that mailers use Bound Printed Matter Parcels to ship inexpensive “light- to moderate-weight packages containing books, catalogs, and similar printed matter” for ground delivery as an alternative to more general-purpose ground shipping products offered by competitors. See *id.* at 6-7. The Postal Service notes that Bound Printed Matter Parcels also competes against hybrid products offered by resellers who enter the packages into the Postal Service’s mailstream as Bound Printed Matter Parcels. *Id.* at 8. As evidence that it does not exercise monopoly power over Bound Printed Matter Parcels, the Postal Service identifies the fact that most of its Bound Printed Matter Parcels volume originates from logistics entities with their own origin-through-last-mile delivery networks, and that the remaining volume almost entirely originates from other logistics entities and a small number of large customers. *Id.* at 10-14. The Postal Service notes that all of these logistics entities and other large customers would be able to divert volume to their own networks or else possess substantial negotiating power when seeking alternatives to the Postal Service. *Id.* at 10-12.

¹ United States Postal Service Request to Transfer Bound Printed Matter Parcels to the Competitive Product List, March 26, 2021 (Request).

In addition, the Postal Service states that the Private Express Statutes (PES) do not apply to the Bound Printed Matter Parcels product because the statutory definition of a “letter” explicitly excludes bound books, catalogs, and telephone directories that meet certain page requirements. *Id.* at 16. The Postal Service states that “any incidental First-Class matter in [Bound Printed Matter Parcels] falls within the exception for cargo” under the Commission’s regulations. *Id.* at 17.

The Postal Service notes that Bound Printed Matter Parcels did not cover its attributable costs in 2020, but it seeks authority from the Commission as part of this transfer to set prices for Parcel Select Bound Printed Matter that would cover its attributable costs. *Id.* at 18. The Postal Service envisions setting prices for Parcel Select Bound Printed Matter in a competitive price adjustment following the transfer. Furthermore, the Postal Service asserts that after the addition of the Parcel Select Bound Printed Matter product, competitive products, as a whole, even in the absence of a price adjustment, will continue to contribute the necessary percentage towards total institutional costs. *Id.* at 18-19; see 39 U.S.C. 3633(a)(3), 39 CFR 3035.107.

The Postal Service also asserts that transferring Bound Printed Matter Parcels to the Competitive product list will address an arbitrary distinction between parcels containing bound, printed matter and parcels containing other goods. Request at 19.

II. Commission Action

The Commission establishes Docket No. MC2021-78 to consider the Postal Service’s proposals described in its Request. Interested persons may submit comments on whether the Request is consistent with the policies of 39

The Request and related filings are available on the Commission's website (<http://www.prc.gov>). The Commission encourages interested persons to review the Request for further details.
